Winter 2015

Congratulations to the 2015 TALHFA Achievement Award Winners!

Megan Lasch of Pinnacle Housing Group accepted the *Special Achievement by a Community Development Agency, CDC, CDFI, Public Agency, Private Organization or Non-Profit Award for Saige Meadows.*

Saige Meadows is a new construction, garden style, multi-family community located in Tyler, Texas. Consisting of 92 mixed-income units, there are ten residential buildings and one clubhouse with amenity and leasing office space and a separate fitness building. Created with working families in mind, this development offers a number of spacious 1, 2, and 3 bedroom apartments/townhomes and encourages active community engagement with a multitude of outdoor amenities.

Michael Wohl, a principal of both Anthem Builders and Pinnacle Housing Group, recognizes the importance of art education as an integral part of communities. In each of the communities, a local artist is commissioned to create an original sculpture, mosaic, or other form of art work. Saige Meadows commissioned the work of Texas sculptor George Tobolowsky out of Dallas, Texas. The sculpture called "Reaching Up" is made of painted steel and stainless steel recycled parts and materials and is featured prominently at the Saige Meadows entrance.
